

WuduMate®

The WuduMate range is the world's leading single appliance for ablution in prayer and multi faith rooms.

Westfield Shopping Centre

Westfield is the United Kingdom's biggest retail-led regeneration developer. The Group's projects act as catalysts for positive change in towns and cities throughout the UK. Westfield works in partnership with local councils and regeneration agencies to promote long-term vision and master planning for city regeneration programme.

Westfield shopping centres deliver social and economic benefits to local communities, making the centres valuable parts of each community and catalysts for substantial new investment.

Westfield Derby is the 1mft shopping Centre that has been designed in the Heart of the vibrant and multicultural city of Derby. The Shopping Centre has a chain of retail outlets that attract a diverse community from Derby and the surrounding Areas.

The Centre allocated an area as a Quiet Room on the 1st Floor of the shopping centre. The comments book in the prayer room suggests the facility is mostly used by Muslim visitors to the Centre.

To complete the prayer facility and not to discriminate against Muslims, the Centre installed a WuduMate supplied by WuduMate, to enable Muslim to perform their ritual wudu comfortably and safely, without the risk of spillage of water and any health and safety risks.

A Manager at the centre said that the prayer room and ablution area had been a great success, and would probably be a model used in future Westfield developments.
