## WuduMate

### LEAD FREE WALL MOUNTED TAP

#### Product Code WM-T-WM-LF

The WuduMate Lead Free Wall Mounted Tap is a functional, stylish, wall mounted, quarter turn tap with both Australian WaterMark and CSA Group (Canadian Standards Association Cert. no.301439) certification. CSA certification is a North American quality standard recognised worldwide, providing the purchaser with peace of mind about manufacturers' labour practices as well as product safety, quality and longevity.

At 175mm long this tap is specifically designed to suit the dimensions of the WuduMate Modular, so that the spout is in the most comfortable position for wudu, the Muslim pre-prayer ablution ritual, and at the right angle to minimise splashing. The vertical drop from the tap means the landing point of the water is unaffected by changes in water pressure.

The WuduMate Wall Mounted Tap is suitable for installation with the WuduMate Modular in high-usage environments, including commercial buildings, mosques and Islamic centres.

The shorter 125mm model is also suitable for a traditional trough set-up in a mosque or Islamic centre ablution room, where it can be paired with the WuduMate Modular Seat Pole and Seat Top, and installed in a series.

**Colour** Silver

**Material** Chromed Lead-Free Brass certified as containing <0.005% lead (Lead Free Materials Certificate H63-HV110-150)

**Weight** Net (0.65kg) Gross 0.82kg

**Carton Size** (mm L310 x W110 x H65)  
- inches L12.21 x W4.33 x H2.56

**Special Notes** The WuduMate Wall Mounted Tap has a robust 1/4-turn on/off mechanism, equipped with a 3.7 litre per minute (1 US gallon) PCA Neoperl aerator which balances the flow of water over a series of WuduMates. The extended nipple (90mm) can be cut to length as required.

**Alternative WuduMate Models** Wall Mounted Manual Lever Tap, Wall Mounted Non Concussive Tap, Wall Mounted Auto Sensor Tap, Wall Mounted 1/4 Turn Short 125mm Tap
