

WuduMate WUDUBASIN

WuduBasin Commercial Installation Guide UK

Contents included with the WuduBasin

- 1 x Dual-Level Porcelain Basin
- 1x WuduMate ¼ turn Pillar Tap
- 1x Single Source Footbath Spray Control Unit, spray, and hoses
- 1x Generic Chinese-made waste set & hoses
- Wall fixing brackets (use optional)
- Optional stool
- Optional non-slip matting

1. Carefully remove the contents from its packaging.
2. Locate the wall-fixing brackets. Mark the area behind the basin where the wall fixing sockets are to be located, to stabilise the unit post-installation (if required).
3. Install taps and water supply according to your preference - Refer to diagram 1.
4. Install waste/traps in the WuduBasin and connect to mains drainage system.
5. Move WuduBasin into position, and mount it onto the fixed brackets if being used.
6. It is recommended that you do not seal the basin to the wall with silicone, as this will make it difficult to remove the basin from the wall if required.
7. Once installed, polish with a non-abrasive cloth.
