Is your washing provision safe?

When people have to wash their feet in a hand basin, awkward balancing, physical strain and water on the floor can create avoidable risks, discomfort and stigma.

Illustrative student scenario

Awkward balancing

Raising a foot to basin height can increase the risk of losing balance.

Wet floors

Splashed water can create a slip hazard for everyone using the washroom.

Dignity and access

Can pupils, students and staff wash comfortably and with privacy?

Do your facilities give Muslim pupils, students and staff a safe, dignified way to wash before prayer?

Review your current washing provision with WuduMate.

WuduMate Classic

A particularly strong and robust unit for regular school and campus use.

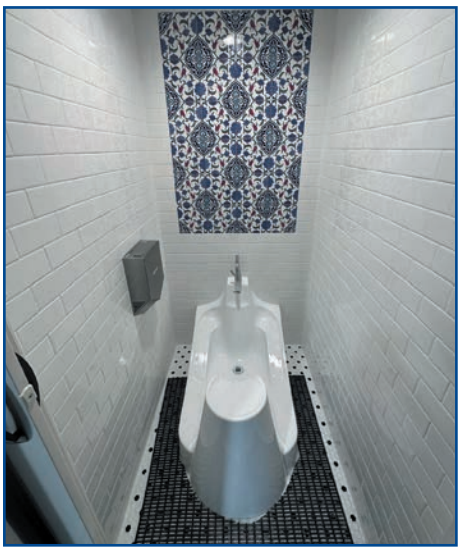

Optional WuduMat shown

- A virtually unbreakable fixed seat supports stable, seated ablution.
- Smooth acrylic surfaces for straightforward cleaning.
- Install individually or as a part of a shared ablution area.

MATERIAL	DIMENSIONS
ACRYLIC	L1050 x W660 x H650mm

Examples of WuduMate Classic arrangements

Choose WuduMate Classic for robust, permanent ablution provision.

WuduMate®

SCHOOLS · COLLEGES · UNIVERSITIES

WuduMate Compact

A popular choice for education settings where space is limited.

Optional seat handles

- A smaller unit with a movable stool.
- Position the stool to suit the user; optional handles provide additional support.
- Available in porcelain or acrylic to suit your project requirements.

MATERIAL	DIMENSIONS
PORCELAIN	L575 x W430 x H610mm
ACRYLIC	L568 x W368 x H600mm

Examples of WuduMate Compact arrangements

Ask how WuduMate Compact could fit your school, college or university.

WuduMate Personal

A discreet, portable option for washing after toilet use.

Give pupils, students and staff a practical personal-washing option where fixed bidet facilities are unavailable.

A reusable, pocket-sized lota for individual use.

- Holds 0.6 litres of water.
- Folds into its own compact, self-sealing pouch.
- Easy to carry in a school or university bag.
- Custom branding available.

Complete your washroom provision

Practical choices for new facilities and refurbishment projects.

Hybrid toilet

Seated and squat positions within one unit.

Accommodate different user preferences with a single toilet. A standard P-trap connection can suit replacement of a compatible conventional toilet.

Toilet with integrated bidet

Provide personal washing within the cubicle.

An integral nozzle keeps washing within the bowl. The side-mounted isolator valve controls the water supply.

Hand basins

Separate hand-washing facilities.

Complete your washroom with basin and tap options to suit your school or campus.

We can help you identify suitable products for your project.

BioZone air care

Tackle persistent odours at source.

Persistent odours in your washrooms?

Help control persistent odours in washrooms and shared spaces by reducing odour-causing bacteria. BioZone also helps inactivate the virus responsible for COVID-19.

BioZone air care options

Tell us about your washroom

Your problem areas

Tell us where odours persist and when they are most noticeable.

Your space

Share the room size and how it is used, so we can discuss an appropriate option.

Ask us about BioZone for your school, college or university.

Complete the ablution area

The finishing touches for a practical, easy-to-use facility.

WuduMat

Help manage water underfoot in wet ablution areas. Non-porous PVC with drainage channels, available in rolls and shaped mats for Classic and Compact units.

Clear signs

Identify washing and prayer areas. Help pupils, students and staff find the right facilities quickly. Qibla signs clearly indicate the direction of prayer.

Suitable taps

Choose from sensor, non-concussive, push-button and wrist-blade taps to suit your requirements.

Auto Sensor Pillar Tap

Lead Free Pillar Tap

Lead Free 1/4 Turn Wall-Mounted Tap

Wall-Mounted Non-Concussive Tap

Ask us to help specify the finishing touches.
